HOW TO READ THIS

Every block below is one card moment from the reading. The card art and name are what the reader just turned over; the two bold words are the card's core teaching meaning; the paragraph under it is exactly what she said while that card sat on the board.

01

The World

The World: **completion** · **cycle closing**

we have the horrified we have the world card and we have the seven of pinnacles looks like it took a long time to close out the cycle what is with the seven of pinnacles

02

The Magician

The Magician: **willpower** · **manifestation**

and then we have the magician so it looks like something is being activated some type of gift perhaps the horrified is an official person and they are someone that's trusted or they have some type of education with something like other people go to this horrified it looks like it's been a long time coming to get to some type of closure or to get some type of how can i say some type of power like the horrified can be a part of an organization they can like this is the kind of energy where it's taken a long time to get a certain position a certain ranking but it's there it's there it's just showing it's

it's something you can't give up on it's something you can't give up on is there anything else i need to know about let me get something with this horrified let me see something with the horrified and then we have the will of fortune yes it is time it's time for the blessings to be bestowed it's time for the the tables to turn the good karma to come in for this horrified

03

Justice

Justice: truth · accountability

injustice is at the bottom here yes justice is at the bottom the horrified has worked very hard for whatever this position or ranking or because it's a new power it's a power that the horrified has worked many years seven of pinnacles to me is like a spectrum seven of pinnacles just to me means that sometimes people work for many years to get what they're trying to get sometimes people work for a few years sometimes people work for just a year but it's not to say people work less or more harder it's just everybody has a different you know time frame for what it is that they want and i just feel like it's taken a long time but it's here what is this energy it's taken a long time

04

King of Swords

King of Swords: authority · truth

and it's time to reap the rewards it is we have the king of swords energy it may be something where the horrified is speaking like it's time for them to speak it's time for them to say something we

Nine of Wands: resilience · persistence

wands energy i want to say somebody's coming to the front we have the nine of wands wait a minute

07

The Devil

The Devil: bondage · attachment

what is this energy damn it we have the devil so yeah somebody had to be ready for this shit somebody had to be ready you can't just battle those kind of forces and not be ready because you're going to lose i mean that's simple i mean you how can i say nobody would think if you go to like the armed forces in any country your first day you're going to be good no they had to train to be there they had to train to do anything that has to

08

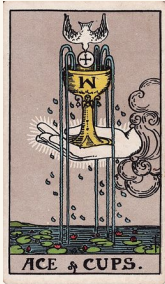

Five of Wands

Five of Wands: conflict · competition

do with some type of combat and this is combat king of sword seven of wands is fire five of wands is fire nine of wands is fire and then the devil clearly there's a fight there there's a battle with a strong force a force that may have control over others but this horrified has been prepared for this this is what the horrified was prepared for and i don't know if this is a spiritual force if this is a human being if i don't know what kind of force it is but it's not a positive influence especially if it's i'm seeing somebody being called to fight this like it's kind of like when you're in martial arts and you go from the red belt to the black belt like that's the last two belts like once you get the black belt i mean i guess you can do different degrees but you're a black belt at that point so before that point you could not have beaten or even fought this energy right here so it's not something where it's like yeah yeah yeah yeah i got here it's like you ready to fight kind of thing what is this and i just saw the tenor pinnacles so the horrified is going to it's going to receive everything i'm just gonna say everything

because it was a whole tenor pinnacles i would have been happy with the eight because we already got the seven i would have been happy with the eight but we got the ten so the horrified is not to be played with them when it comes to you know whatever this fight or battle that they have been preparing for for a long time the horrified

09

13

Ace of Wands

Ace of Wands: spark · inspiration

ace of wands energy this is so crazy is the double energy trying to take whatever this horrified is receiving they're trying to they're trying to take it and the horrified has to fight back they're trying to take it and silence this horrified take it and move forward like because they know this whoever this devil energy is they know the power of what this horrified has they know that something is real and they're trying to they're trying to silence or just in prison they're trying to do something with this horrified i don't like that because the horrified get in bless because the horrified has come to some type of level they're trying to imprison the horrified because they say the horrified went too far or they're going too far or they're getting too much you know it's something where that's not fair what's this energy so you got these forces trying to shut the horrified down because the horrified is receiving what they're supposed to receive they worked for we have the eight of pinnacles i just said i would have been happy with the eight of pinnacles how they're going to even act like that is something that the horrified has mastered like imagine being too good at knowing laws imagine that imagine that you're too good at knowing the laws and they're like nah we got to lock them up or imagine you'd be in too good at like you know science and finding you know maybe curious to things they it's giving like they trying to lock somebody up because a person has that ability or they have risen to that ability that's crazy as hell you're going to have to say they have resonates though because i don't know what level this horrified i don't know what they do because every horrified is different but in nonetheless it's a spiritual title no matter what you do when you get to that level that's horrified energy where you can lead people to where they got to go that's horrified energy what's this energy here at confirmation

14

Queen of Pentacles

Queen of Pentacles: **nurturing** · **practical**

what's this energy here we have the queen of pentacles energy we have five of pinnacles come on now okay we got the ace of pinnacles though it's something gets renewed it's like they try to take something from this queen of pentacles or it could be the horrified they try to take it but it gets renewed or something new comes or they get a new opportunity a new pathway a new seed to plant

15

Strength

Strength: **inner strength** · **controlled force**

yeah we got the strength card yeah they don't like that it's like every doorway they try to shut with this horrified there's a new doorway or there's a new way or there's a new blessing or there's a new person or there's it's something that they can't shut off it's as if they're trying to shut off the horrified water and like you know we live at the beach kind of thing like they're not going to win that battle they're not going to they're not going to win that battle right there i don't know what's going on or what like they really don't want the horrified to be above the system that's crazy so what is this energy what is going on in this industry we have the full card okay so

16

The World

The World: **completion** · **cycle closing**

there will be a new beginning the horrified already got the world card and that's the last major arcana the full card is the first major arcana there will be a new beginning there's nothing that can be done about that and it's the four ones it's a right a passage like if it wasn't for a spiritual forces man because i know these demons thought they won in the past know they set themselves up in the past now they realize they did and they're losing the battle they're losing the fight they're about to lose every damn thing they're trying to fight the horrifants the with the messengers the ones that was sent

here to save people and shit they're trying to fight them these demons come on now they need to stop they need to just give it up but that's going to be their karma that's going to be on them what's this energy here with this because but that's the thing like what's weird about it is they want to absorb what this horrified is or what they have they don't want it to be the horrified they want to take that and maybe package it or however the i don't know what they want to do with it but they want to take it they want possession of it that's all it is about they want confirmation and that was a loud vibration right there they want possession of it they don't want the horrified to have possession of it it could be even some type of education you have some type of knowledge that they don't want you to have it they want to have it they want to be the ones that look like the originator they want to be the ones that look like the glass ceiling and it's like no they can't because they're demons and they live in the shadows and a darkness and shit like that like that's why it's not theirs it's not theirs to have or to take that's what's going to stop they're going to starve that's it's it's going to stop the blessing is not theirs

17

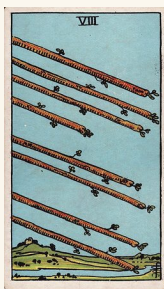

The Empress

The Empress: nurturing · abundance

it's not theirs we got the Empress there what is this energy here let me get another deck what is this energy

18

Eight of Wands, Page of Cups

Eight of Wands: speed · movement

Page of Cups: intuition · messages

we have the tennis sword we have the eight of wands energy and then we have the page of cups I got to clarify this page of cups what is this page of cups doing here

19

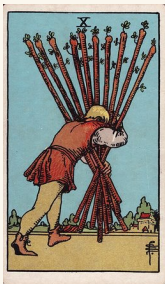

Five of Swords

Five of Swords: conflict · defeat

they live like some type of petal look five of sword energy no this is immature actions as somebody is taking this is very mature but I wonder why it came out like a page of cups though that's very young that's very immature and then five of sword is somebody that they have a disagreement or they're trying to prove like it's kind of like what politicians do when they like make um they make commercials to bash the other politician like it's kind of like that but like I don't know in what form they're doing is they're trying to take the favor from the harifant they're trying to tarnish the harifant in any kind of way that they can so the harifant cannot be beyond the system above the system they want to tarnish it

20

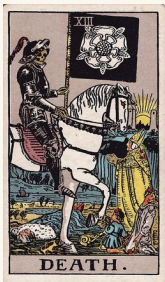

Ten of Wands

Ten of Wands: burden · responsibility

what is this energy here we have the 10 of wands energy and 10 of wands is even a lot that's like

21

Death

Death: endings · transformation

the most force you can put on something and then we got the death card like I don't want to see it the way that I'm seeing it but that's how I'm seeing it they really want to get rid of the harifant because the harifant is getting blessed the harifant is getting to a certain level and that's always how they do I mean I'm not trying to say but that's I don't even want to use nobody's names but I'm pretty sure we can think of a few keep players a few keep people in history that was getting a little bit too much attention and waking people up and they got rid of them we don't live in those times no more they need to stop playing with that they need to stop playing like that like people do need to wake up and shit like why you want to take the people out that's trying to wake people up because we can see

the truth and shit because you be lying that's what it is these demons be lying they all be lying they don't care about no fucking lie what is this energy here I'm so tired we still got the 10 of pinnacles though like they want possession of that but it's not going down

22

Justice

Justice: truth · accountability

like that justice still came out it's not going down like that I don't care what has to happen okay I don't care what has to happen it's not going down like that it's not going down like that this is a very creative place it's not going down like that like I said they're going to stop that shit I don't give a fuck if they have to drop dead where they stand they're gonna stop that shit what's this energy here and it says sacred plan okay okay for giving this an understanding no and it says opportunity and change yeah I go with that one they can change what I know forgiveness and understanding they about to go down if they I'm telling you opportunity and change and divine timing if they want to keep playing it says how many in resolution that's justice right there so they need to turn around they need to ask for some fucking forgiveness that's what they need to do but I'm going to leave this one right here if you liked what did I replace like share and subscribe thank you so much for your like shares and subscribe I truly appreciate it because it is how we get the messages out in order to elevate the collective I love you guys another reading
